

# NX-400

**The NX-400**  
An easy to use computerised sewing machine with touch-button controls. Features 294 pre-programmed stitches.

Always at your side

New  
 Value

To enjoy sewing more

**Easy to read display with smart functions**

The easy to read display and computerised functions make sewing simple and more enjoyable when creating new and original projects.

**LCD screen**

An LCD screen displays the settings for selected stitches, stitch length and width, and the type of presser-foot.

**294-stitch selection**

The pre-programmed stitches are categorised in eight groups. The desired stitch is selected by using arrow keys.

**Checking machine operating procedures**

Machine operating procedures can be checked by referring to the LCD display.

**My Custom Stitch™**

With the exclusive My Custom Stitch™ feature, the user can copy or design decorative stitches on the LCD panel. These can then be saved to memory for future use.

**Direct selection**

Buttons on the control panel enable the user to conveniently select from 12 of the most commonly used utility stitches.

**Error messages**

These alert the user to oversights. For example, if the buttonhole lever has not been lowered, a sound and display message will notify the user.

**Programmed thread trimming**

When one of the pre-programmed thread-trimming operations is selected, the thread is automatically trimmed at the end of sewing.

**Customised settings**

When required, the stitch width and length can be freely adjusted. All customised settings of the utility stitches can be stored in memory for future use.

New  
 Value

User friendly

**Straightforward, user-friendly design**

Ergonomic design makes the NX-400 an easy machine to use for the successful creation of new sewing projects.

# ised NX-400 sewing machine wing from a chore to a new level of enjoyment

**Front spool**

The thread-spool is situated on the front of the machine for easier threading.

**Attachment for large, flat bed items**

Ample space is provided so that the NX-400 can handle large articles such as bed linen and quilts.

**Handy central controls**

For ease of use, all operating buttons are on one convenient panel. This allows slow starts to be carried out with confidence.

**Accessory compartment**

This space comfortably holds all the included accessories.

# 294 stitches

The built-in stitch selection is perfect for enhancing the sewing of everything from clothing to home décor.

## Utility stitches 67

## Decorative stitches 31

## Satin stitches 16

## Cross stitches 5

## Decorative satin stitches 10

## Gothic font 55

## Script font 55

## Outline font 55

## Enjoy making and decorating special projects

The included accessories enable sewing or quilting work to be more versatile and neat. The special, presser-feet make traditional quilting patterns and decorative embellishments enjoyable and easy to accomplish. A knee-lifter, suitable for piercing, quilting and garment construction is also included.

New Value

Easy and convenient

## Functions for improved finish quality

Special functions for sewing secure and attractive seams provide a standard of finish that is a class apart – even with heavy fabrics like denim.

A feed-dog has been added at the front and this provides an attractive finish on heavy and light materials, and cords.

### Presser foot levelling button

This keeps the presser foot level so that smooth seams can be obtained when sewing at the beginning of stitching.

### Presser-foot pressure adjustment

When sewing stretch fabrics, the degree of pressure exerted by the presser-foot prevents the material being stretched.

New Value

Easy and convenient

## Functions for easing difficult tasks

Special built-in functions mean less troublesome tasks, less hassle and more creative freedom.

### Quick-set bobbin

Simplicity itself. Insert the bobbin and pass the thread in the direction of the arrow. Start sewing.

### F.A.S.T. bobbin winding system

Bobbin winding is easier. Wind the thread four or five times around the bobbin, pass it through the guide slot, and press the start button. Simple.

### Automatic needle threader

Quick and easy needle threading.

## 294 stitches 24 functions

F.A.S.T. bobbin winding system

Automatic needle threader

### Other enhanced functions

#### Dual LED lamp

The light, which is bright but gentle on the eyes, makes it easier to work with dark materials and will not overheat even with prolonged use.

#### Free arm

A convenient feature that makes the sewing of trouser legs and other circular items so much easier.

#### Needle stop-position switching mechanism

This makes it easier to reverse the material and is a useful feature when sewing corners.

#### Drop feed

The feed-dog can be lowered so that materials can be moved freely.

#### Slide-type speed control

A feature that makes it simple to sew around curves. At the slower speed settings beginners will find it easier to sew with safety.

#### Upper thread shutter

A shutter is attached so that the upper thread cannot be threaded while the presser-foot is lowered.

#### Switch illumination

Indicates the condition of the machine by illuminating a green, red or orange light.

#### One-step automatic buttonholer

An automatic buttonholer that can produce buttonholes to perfectly complement the buttons used.

## OPTIONAL ACCESSORIES

**Wide table**  
For better fabric handling when sewing and quilting.

**Side cutter**  
For overcasting when cutting fabric – as with overlock stitching.
