

NV Series Sewing Machines

A stylish and easy to use range of computerised sewing and quilting machines; with touch button controls, advanced needle threading and bright LED lighting, the NV Series is designed to make sewing and quilting more enjoyable.

- Stylish European design
- Advanced needle threading system
- Presser foot pressure adjustment
- Easy to use control panel with clear display
- Quick-set drop in bobbin
- Electronic speed control for sewing accuracy
- Seven-point feed dog for smooth fabric management and superior stitch quality

NV210

The Innov-is 210 puts all the functions at your fingertips with touch-button controls and pre-programmed stitches.

This easy to use computerised sewing machine offers 80 built-in stitches and special features such as advanced needle threading system, seven-point feed dog that allows you to sew perfect seams on any weight of fabric, as well as presser-foot pressure adjustment to give you total control for smoother feeding of fabric.

A hard carry case with built-in storage is included.

Presser-foot pressure adjustment

Simply adjust the pressure applied on the presser foot for the weight of the fabric you wish to sew.

Advanced needle threading system

The advanced built-in system makes threading the needle effortless.

Quick-set bobbin

Just drop in a full bobbin, thread in the direction of the arrow and you are ready to sew.

F.A.S.T. bobbin winding system

Just wind the thread around the bobbin, pass it through the guideslot and press start. It's bobbin winding made easy.

NV410

The Innov-is 410 is designed to fulfil all your sewing and quilting needs. This easy to use computerised sewing machine features built-in scissors and a wide extension table.

Choose from 294 utility and decorative stitches including 10 buttonhole styles and 3 fonts. Enjoy advanced features such as direct stitch selection; simply key in the number of the pre-programmed stitch you would like to use, and if you are feeling really creative, the My Custom Stitch feature will let you design your own decorative stitches.

Easy threading, perfect bobbin winding and consistent thread tension will help you to be the seamstress you have always wanted to be!

Seven-point feed dog

Extra teeth for smoother feeding gives superior stitch quality. Achieve even better results on different weights of fabric when used in conjunction with the presser-foot pressure adjustment.

Direct stitch selection

Simply key in the number of the pre-programmed stitch you would like to use.

Built-in scissors

Upper and lower thread can be trimmed at the touch of a button or programmed to trim at the end of sewing, saving time.

Speed control customised for zigzag width

The slide control can be set from slow to fast to ensure you always sew with accuracy, particularly on intricate detail or curves. It can also be programmed to alter the stitch width on zig-zag.

NV610

The Innov-is 610 is perfect for the expert quilter and garment maker, designed to make your sewing and quilting more enjoyable.

This easy to use computerised sewing and quilting machine has powerful features including electronic thread tension, sideways feeding, advanced needle threading system and presser-foot pressure adjustment - the NV610 will revolutionise the way you sew!

Concentrate on your project and create your vision easier than ever before; choose from 429 utility and decorative stitches including 10 automatic buttonhole styles and 3 fonts in upper and lower case. Built-in scissors, knee lift and a wide extension table are also included.

My favourite stitch

A handy function that allows you to store your favourite stitches into memory pockets, giving you one touch access to those most frequently used.

Sideways feed

Ideal for attaching appliqués to fabric that cannot be moved around, such as cylindrical pieces. Allows you to sew straight stitches and zigzag stitches to the left or the right. Also create wider than 7mm character decorative stitches.

Knee lift

Free up your hands by using your knee to lift the presser foot. Ideal for working on large projects such as quilts.

My Custom Stitch™

This unique feature allows you to design your own decorative stitches on the LCD display panel and save them to memory, to use whenever you wish.

Features and benefits

The NV Series is designed to make sewing and quilting more enjoyable. Compare the features and benefits offered on the NV210, NV410 and NV610 and choose the machine that is right for you.

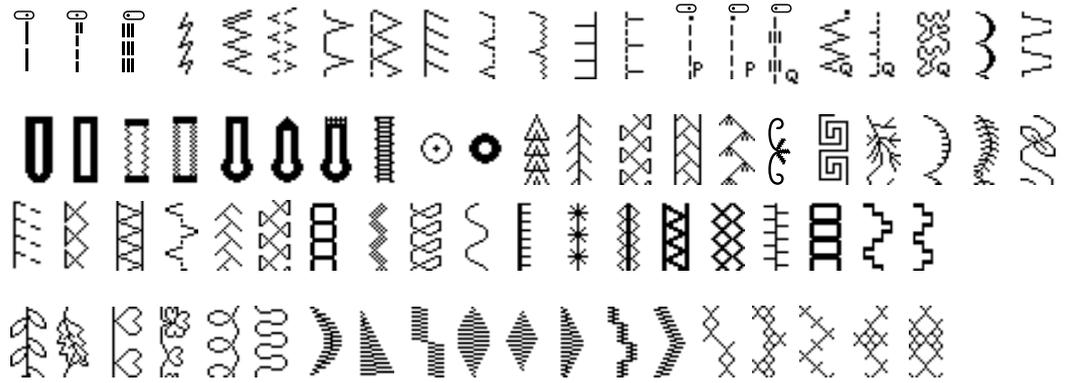

Feature	Benefit	NV210	NV410	NV610
